Ignite! 2018 Art Grants

Over the past two years, we have awarded $4,150 towards artists who have added to the Ignite! experience by creating their works of art to be displayed in our beautiful city of Combustia. We are excited to continue that tradition by awarding $3,000 to artists for Ignite! 2018.

Aqueous
Artist: Billy Skyote Romano
Location: Pyrotopia
The Aqueous installation incorporates the hypnotic effect of bubble screen technology illuminated by color changing LEDs to produce a steady stream of low pressure propane bubbles fueling a steady pilot light bar atop the piece. Viewable from both sides, this elegant display of water, gas and fire will mesmerize viewers while casting a soft color changing luminescent glow in its immediate surroundings. Standing 8 feet tall and 4 feet wide, its minimal design style will accentuate the natural chaos of both erratic bubbles and undulating fire.

Blue Chrysalis
Artist: Steven Warrick
Location: Unicorn Pasture
Blue Chrysalis is an experiment in form and light. It uses translucent materials to bend and shape moving light within its structure and travel across the surface. It represents the transformation and enlightenment of the human soul over time.

Flaming Chandeliers
Artist: Ryan Gon Bowman
Location: Pyrotopia
Imagine walking into a dream... and the entrance to every dream has a gateway! But this gateway is one that fuses the old with the new and how changes are to be expected. 4 Chandeliers that are on fire and with the pull of a string the chandeliers catch FIRE! Are you in? Or out?

Human Car Wash
Artist: Tonya Judd
Location: Pyrotopia
A corridor will have different types of physically stimulating attachments. The participants walk through it feeling, seeing, and touching each piece. The tactile portion would be comprised of beaded curtains, foil curtains, chains, feather dusters, rubber balls, bamboo poles and leaves, and scarves, all suspended from trusses. The participant would walk, run, and dance through the corridor feeling, touching, and seeing the different colors and textures.

I Believe
Artist: Aaron "Just Aaron" Averill
Location: Eldur
Enter the capsule. Experience the outer world falling away as you are bathed in rhythmic changing lights. Meditate and look inward, or enjoy with a friend or two.

The Solar Forest
Artist: Taylor Holden
Location: Pyrotopia
Solar energy illuminates the gorgeous natural curves of the forest in this LNT meets DIY experience. How can we illuminate and embellish the beauty of nature by night in our city while leaving a minimal carbon footprint? Discover this magical space and the knowledge to leave no trace in your future endeavors.

Wishing Posts
Artist: Oliver QuijaCat Vest
Location: Fuego
Is there something you need (at the burn or in the default world) from a hug, or a cuddle puddle, to leads on a place to stay, or a used vehicle? When in need, turn to the community for assistance. From the small, to the outlandish, help, or just some good vibes, can come from unexpected places.
